NEW ADVERTISEMENTS.

TO MOTHERS.
In a country where the rearing of infants is attended with somewhat exceptional difficulties and risk owing partly to climatic reasons, and partly to the difficulty of getting medical assistance in the camp, an apology is hardly needed for publishing a small hand-book on the subject for the use of mothers. In Dr. Pennell's book on Infant Feeding an attempt has been made to explain in simple terms the reasons on which the various rules and recommendations are based, in order that a mother in modifying her child's diet from time to time as required, may be guided by common sense and not by the hundred and one conflicting counsels, with which she will be assailed. On sale at all bookstalls and libraries.

United Kingdom
London, 23rd.—An article published by
the *Pall Mall Gazette* announcing an
alliance between Russia and Turkey has
created a sensation. The treaty has been
drawn up in a way that will allow France
to join the alliance whenever she wants
to do so.

Queen Victoria is sick; the cause of her
illness is the death of Prince Henry
of Battenberg. It is asserted that
Her Majesty is in a much more serious
condition than the bulletins issued state.
The Court will go into mourning for a
month.

The shock received by Princess Beatrice
has made her seriously ill. The body of
Prince Henry will arrive in London on
the 2nd February.

The Bombay Government has sent
in a project for abolishing the duties
on thread and reducing the tax on woven
cloth to 3 1/4 %.

The negotiations between England and
Brazil about Trinidad Island are going on
in a friendly spirit. When the Brazilian
Minister left the Foreign Office to-day
after a long conference with Lord Salis-
bury, he appeared to be in very good hu-
mour, and a speedy and satisfactory solu-
tion is looked for.

The Queen has received numerous tele-
grams of condolence from all the countries
of Europe on the death of Prince Henry
of Battenberg. The funeral ceremonies
here will be very imposing.

Princess Beatrice, widow of the late
Prince Henry of Battenberg, has received a
large number of telegrams expressing
condolence with her in her bereavement,
amongst them being two very affection-
ate messages from the German Emperor
and King Humbert.

Germany
Kiel, 23rd.—The prospects of the Canal
are increasing slowly, and are now fairly
satisfactory.

France
Paris, 23rd.—The news of the capture of
Makallé by the Abyssinians has been of-
ficially denied by the Italian Government.
The also *Figaro* states that the news it
received yesterday as to the capture re-
quires confirmation.

In military circles it is reported that
M. Cavaignac, the Minister of War, de-
sires to form two fresh regiments of field-
artillery, and that the proposal was yester-
day laid before the Headquarters staff.

A deep impression has been caused here
by the announcement in to-day's issue of
the *Pall Mall Gazette* to the effect that
Russia had entered into an alliance with
Turkey, and that France was inclined to
support her. So far, however, this start-
ling piece of news has not been confirm-
ed by any of the official organs of this
Capital.

A new treaty declares Madagascar to be
a French possession with Queen Rana-
vala as native Administrator.

United States
New York, 23rd.—The Washington cor-
respondent of the *New York Herald* states
that Salisbury wishes to again be on a
friendly footing with Venezuela.

Mr. Woolcott made a speech in the Sen-
ate this afternoon in which he violently
attacked President Cleveland's policy
with regard to the Venezuelan question.
Mr. Woolcott declared that the Monroe
Doctrine was not applicable in the present
question. He also stated that the Bound-
ary Commission was more of a menace
to the peace of the world than a safeguard
for it. The speaker wound up by declar-
ing that he approved the Monroe Doctrine
when it was properly applied, but cer-
tainly not when it is a matter of trumping
up the Doctrine in a trifling difficulty like
the present one, and which might lead the
United States into trouble with countries
with which it would be far better to be
friendly.

The majority of the press applaud Mr.
Woolcott's speech, stating that the friend-
ship of England is worth more than an
intervention which would be rewarded
by being forgotten.

The *Herald* states that no President
has ever deserved so much censure as
President Cleveland, who deliberately
signed a state document in which he
breathed what nobody else ever dreamt of,
viz—war, and this in the midst of profound
peace.

The Cuban insurgents have captured the
capital of the Province of Pinar del Rio.
The reported rout of the rebels on Tues-
day is stoutly denied.

In consequence of the news published
here of the strained relations between Chile
and Argentina, the Chilean Minister in
Washington telegraphed to his Govern-
ment, and received an answer that the
news was false, as the two countries con-
tinue on excellent terms.

Italy
Rome, 23rd.—A telegram received this
afternoon from Adaguan states that Gen-
eral Baratieri has strengthened several of
the Italian garrisons in Eritrea and in the
Province of Tigre, to prevent any rising
being attempted by the neighbouring
tribes.

Count Nigra, Italian Ambassador at the
Austrian Court, arrived here yesterday
and was received to-day in an ostentation
manner by the King. He subsequently
conferred with Signor Blanc the Foreign
Minister. Great reserve is maintained
concerning the subject of the interviews.

Turkey.
Constantinople, 23rd.—The state of
affairs in Arabia inspires alarm. The
insurrection is rapidly spreading and
threatens to extend to the other provinces
of the Empire in that part of Asia. Be-
fore the end of the month several fresh
battalions are to be despatched to Arabia
to quell the rebellion.

Portugal
Lisbon, 23rd.—The Minister of the In-
terior, Branco, is seriously ill, and his
doctors prohibit mental work for some
time.

Japan.
Tokio, 23rd.—Fifty Japanese officers of
all arms are about to leave for Paris and
Berlin, to enter the French and German
armies, to learn the trade of war.

Belgium
Brussels, 23rd.—The Queen, Marie-
Henriette, has for the last 2 days been
confined to her bed by a severe attack of
illness and all the Court-functions have
consequently been suspended.

Brazil.
Rio Janeiro, 23rd.—Exchange is quoted
at 9 3/16d.
The Pacific steamer Potosi left the har-
bour at two o'clock this afternoon.

The rumour of the proposed cruise of
the Benjamin Constant to the Island of
Trinidad is denied.
Several disorders occurred in Pernam-
buco on account of the elections.
The French steamer Chile left to-day for
Buenos Aires.

Twenty-five cases of yellow fever oc-
curred in this city to-day.

Chile
Valparaiso, 23rd.—General Kerner re-
viewed the 4th infantry regiment of the
Line to-day.

Dr. Quirino Costa told a reporter of the
Nueva Republica that the report given by
the *Prensa* of Buenos Aires, in which it
was stated that the Minister carried an
ultimatum in his pocket, is not true. Dr.
Costa declared that his mission was one of
peace.

Dr. Rocha declared before leaving An-
tofaasta that he had completely succeed-
ed in his mission to Bolivia.

THE GOLD MINES OF SAN LUIS.

Dr. Francisco P. Moreno, the director
of the La Plata Museum, has just pub-
lished from the printing-office of his Mu-
seum a neat pamphlet giving a description
of an exploration trip made by Dr. Valen-
tin, through the gold mining districts of
San Luis, in the months of September
and October of 1894.

This pamphlet, properly speaking,
should have been published in English
and not in Spanish, and if freely circu-
lated in London, where the gold mining
fever is at such a height, it is possible
that on the reading of Dr. Valentin's ex-
plorations, some English gold mining ex-
perts might take it into their heads to
come out to San Luis and put new life
into its mining industry. There can be
no manner of doubt that there are rich
gold veins in the mountain of Tomolasta,
as also in Canada Honda. In nearly all
the streams and rivers of San Luis gold
is found in the sand of the border or
bank. In the principal places where gold
washing is carried on, nuggets are still
found, sometimes weighing an ounce. In
the environs of San Francisco (depart-
ment of Ayacucho) in the mines Encan-
tadora, Josefina, Monte Cristo, Descubri-
dora, etc., and near to Rincon, the gold
is found mixed with red copper, sulphide
of copper, malachite, etc.

The mines and mineral districts of great-
est importance are the following: In the
department of Ayacucho—Auriferia, Ade-
laida, Aurora, Buena Esperanza, Bella
Argentina, Clarita Clodomira, Descubri-
dora, Encantadora, Estrella, Gloria, Jo-
venita, Laura, Portefa, Rosarito, To-
payar, San Antonio, Santa Maria and
Victoria, all of gold, silver and copper.

Dr. Valentin arrived at San Luis on
the 11th of September, 1894, where he
remained a few days making some excur-
sions. He was accompanied by Mr. Rau
Nievas, and he first started off to the
Carolina mine and the Canada Honda.
There he met Mr. Doering, the mining
engineer, and Mr. W. T. Yeldham, the
manager of the Carolina mine, and the
gold washings at Canada Honda. From
there he went to San Francisco to ex-
amine the mines in that mountain; he met
Mr. Le Noir, the manager of the mines
there, and Mr. William Terrasse, the en-
gineer of the Franco-Argentine Mining
Company, from whom he received every
assistance, as also from the Governor of
the Province and Dr. Daract the National
Deputy.

We shall skip Dr. Valentin's technical
description and leave it for the study of
the gold mining experts, Santa Barbara,
officially called San Martin, comprises the
country West of Renca and South of Sa-
ladillo. It is mountainous and rich in
minerals, containing the famous Carolina
mines as well as the Canada Honda and
Corros Blancos, both well known for gold
washing. Two of the Carolina gold mines
have been repeatedly worked at intervals.

Some of the works have demanded much
labour; Messrs Schmidt, for example, hav-
ing sunk a shaft 36 inches in diameter to
a depth of 240 feet.

The locality of Carolina is delightful as
regards climate, and an Englishman who
was suffering from a lung disease writes
of it as follows: "Carolina is the climate
that suits me best, the temperature is so
agreeable. It ranges between 60 and 70
during the day, and after sunset remains
warm for a long time, the bare rocks giv-
ing out the heat which they received
during the day from the sun.

"I am just 4,908 feet above the sea, right
at the foot of Tomolasta, which peak is
the highest in the Sierra (7,260). There
is not a tree or a bush except a few pop-
lars close to the house in which I write.
Meat, butter, cheese, milk and potatoes
are cheap, as the valley has a number of
irrigated farms which are cultivated by
women, the men hiding anywhere to es-
cape military service. But for this the
country would be more secure and these
valleys would produce on a much
larger scale. The villages of Carmen and
San Lorenzo have chapels and schools.
They are on the N.E. slope of the Sierra.
Chief town Santa Barbara; with 500 in-
habitants, church, local authorities and a
school of 80 children is at the entrance of
the defile of same name; the inhabitants
live by cattle-farming.

Dr. Valentin says that for the last 60
years they have been working the gold
washings of Canada Honda. In the year
1852 Mr. M. G. Morales, a Chilian, over-
came all the difficulties and put up some
good machinery. In 1888 Morales sold
out to two English companies, The Central
Argentine Capra Valley Exploration,
Limited, and The Central Argentine Gold
Fields, Limited, and instead of the simple
way of working carried on by Morales,
an expensive and complicated administra-
tion was got up, costing from \$3,000 to
\$4,000 per month, and thus they spent
\$19,000 in two or three years and only got
out of the mines 300 ounces of gold. It
is not wonderful, therefore, that these
companies burst up, and the mines were
passed over to the director of The Cen-
tral Argentine Gold Fields, Limited, for
a debt due to him. Mr. Randolph Mellor
at present works these mines, but on a
small scale.

The Carolina mine has been worked for
over 100 years. In 1864 a Frenchman,
M. Alric, put in a capital of \$5,000 gold,
and worked the mine with Mr. Lallemand,
and ultimately Mr. Euler joined with a
capital of \$30,000 gold. He died
shortly after, and left everything to Mr.
O. Mann, who sold out to Mr. Trendel-
burg. Lallemand also sold out. Messrs.
Schmidt, Trendelburg and Co. spent a lot
of money working the mine, and ultimate-
ly the mine was sold off at auction. Mr.
Wileman then formed an English Com-
pany of £200,000 capital, who bought the
mine and worked it for some time with
great success. £62,000 worth of gold was
got out in a very short time and paid as
dividend, and then the gold and the Com-
pany stopped short.

It seems admitted that the deeper they
go the less gold Dr. Valentin thinks that
the mines would pay, but for the extra-
vagant salaries paid £238 stg. to 9 clerks
every month, swamped everything. But
now a new Company has taken over the
mine, called The Argentine Concessions,
and is working it most economically.
Dr. Valentin when there saw 20 men at
work at an expense of \$10000 per month.

We must here stop short, as to follow
on through the pamphlet would take up
more space than we can afford. We may
add, however, that Mr. McGee, an Amer-
ican Mining Engineer, tells us that a
well known American gold expert vi-
sited San Luis a couple of years ago and
stated that in all his travels he never met
with a richer gold district than San Luis;
but that the drawback is the want of water;
still the gold is there, and that is one
grand fact. We have handed the pamphlet
to Mr. McGee.

LATEST FROM NEW ZEALAND.
THE RICHEST ESTANCERO IN THE WORLD.

One of the best known men in Aus-
tralia is undoubtedly the renowned
Queensland squatter, familiarly known to
every bushman as "Jemmy" Tyson, the
richest man in the Australian colonies.
Hundreds of anecdotes are told about
this quaint character, and his enormous
wealth, his strict economy, and his ecen-
tricitics of conduct have given rise to a
good many tales which have no foundation
in fact. Among the true ones, however,
is one which the millionaire himself calls
his "flute" yarn, and is very fond of re-
peating. It was recently told by a con-
temporary, and is to the effect that at
the beginning of his business career,
away back in the forties, before starting
on an inland trip, he bought a flute for
10s. Arriving at a station, and having
had tea, he amused the men by
playing on the flute, and was offered
30s. for it. This was not enough,
and away he went to the next station,
where the same performance was gone
through. The bids for the flute here went
as high as £3 and at that figure its sale
was effected. The £3 was next day in-
vested in three heifers—"and those three
heifers," adds "Jemmy," when telling the
story, "were the foundation of my stock
at the present day. Heifers will increase,
but flutes won't." At the present time
Mr. Tyson's income is estimated at £2000
per day, and he is said to own more land
and cattle "in one hand" than any other
man or firm in any of the colonies. On
one station alone he has 99,000 head of
cattle. His commencement in life, as may
be inferred, was humble. At the time of
his birth, in 1823, his father was a district
constable, and the lad started at an early
age as a working farm overseer. Two or
three years later he took up a run with
his brother. When the discovery of gold

432—LIBERTAD—432

The Argentine gun-boat Parana leaves immediately for San Blas to place buoys at the mouth of the channel, as those placed ten years ago by Col. Rivadavia have been all washed away. Our colleague *El Diario* has not forgotten the story of the loss of an American barque on the coast down there with 200 pianos on board, all bound for Chile about 30 years ago. The pianos are all lying in the bottom of the bay in tin cased boxes, and the salvage is worth the while of the Parana to look after. The late Dr. José Atkins, for many years Juez de Paz of Patagones, always stated that on the Peninsula of San Blas there is a large treasure hid away, and that many parties have come from Scotland and Australia to look for it.

The latest and freshest from Bolivia is that they have got some German officers to drill the Bolivian soldiers.

In reply to a note received yesterday from a subscriber, we may state that no telegrams have come stating that Lord Salisbury's note to Mr. Olney is a "bola". On the contrary, we have every reason to believe that the news is perfectly true and reliable.

Mr. Portela, the new Argentine Minister to Brazil, was born in Caballito in the Quinta Portela, which still exists and is known to so many of our readers. His father was a distinguished man and filled the post of Minister of Buenos Aires, when there was no National Government in this province.

The crowds of people every night now promenading in the Boulevard de Mayo remind us how much the world has changed since the days when the curfew tolled the knell of parting day. Children that ought to be in their beds fast asleep are knocking about the Boulevard up to midnight. We think Lord Mayor Bunge ought to ring a bell every night on his Boulevard at 9 o'clock to send the children home to bed. This Boulevard is completely changing our manners, our customs and our hours.

The whole city claps Lord Mayor Bunge on the back for his beautiful asphalt pavement in Calle Piedad; it is the admiration of all Buenos Aires, and makes Calle Piedad resemble Grafton street, Dublin, and Oxford street, London. It is to be hoped that Bunge will asphaltize Calle Rivadavia, which is in the most desperate state owing to the heavy rains and the adobe pavement having been laid without any foundation. Not even in Ashtantee is there to be found such a shocking street as Calle Rivadavia at present. At Almagro you have the Gap of Dunloe, at the Plaza Once the meeting of the waters, near Caballito you have the Devil's Glen, and in front of Mr. Mackintosh's, the Scalp, and facing Dr. Pilgrim's the Devil's Punch Bowl. It is really monstrous to think that the greatest street and highway in the city should be in such an awful state. Why not shut up the street in toto?

The *Echo* of Rosario is always welcome. It seems to be doing its best to keep that loose bundle of sticks, the English community there, together. Our colleague is still very hard on the private banks, and there is talk of starting a Commercial Bank, with capital subscribed in this country. Rosario seems to be picking up faster after the crisis than any other place. Scarcely a day passes but the Municipality issues half a dozen building permits, and in spite of this there is a great scarcity of houses. One hundred and fifty dollars is to-day the rent for a decent five-roomed house, and more if in the centre. Doctor William Galbraith has been named Juez de Instrucción for this year. No better nomination could have been made, as this position is of great importance, and one which requires great activity and experience.

The Grand Old Man wants to help to keep "British Politics" alive, like our friends who writes to us about "Our Own" in London. He has written a letter praising Uncle Paul Kruger for not hanging Jameson without benefit of clergy; and declaring that his attack on the Boers was most unjustifiable. There is considerable regret in England at "poor Henry's" death. He expired on board the cruiser *Blonde* on his way to Madeira, where he hoped to recover. The *Blonde* is expected in England with the remains on February 2nd.

We have seen the programme for the Smoking Concert to-morrow night. There are twenty numbers of the most varied kind, and the pow-wow must prove a brilliant success.

Drs. A. Quiroga and J. Reyes left yesterday for Douai, to see if they can contribute towards having the head of that villain Tremble removed from his shoulders. Dr. Q. had a long interview yesterday with Judge Gallegos, who allowed him to take with him, to support the case in the French courts, several articles stained with blood from the room in Calle Cangallo where the murder was committed. The whole case in France hinges on how the unfortunate Farbes's head got to the place where it was found.

"Age cannot wither it, nor custom stale, its infinite variety," was what we ejaculated when our old friend Jacobson sent us Whitaker's Almanack for 1896; and we glanced with pleasure through its interesting pages. No business man, no statesman, no scholar should be without it. We shall be pleased to hear that Mr. Jacobson sells every one of those imported. An early application should be made to him.

The Berlin papers describe as follows the skating accident to the sister of the Empress which so riled Emperor William that he gave his "con-cuñado" a big piece of his Imperial mind on the property of Princesses mixing with the vulgar crowd on the ice:—"Princess Frederick Leopold, sister of the German Empress, fell through the ice this morning whilst skating on the Griebnitz Lake, near Babelsberg. The Princess had with her a lady-in-waiting, and when near the steamer landing stage she got on to a thin part and broke through. The same thing happened to Fr. von Colmar, the lady with her. Happily a man named Hankwitz saw the accident, and hurried up with a long pole, which both ladies grasped. The ice, however, gave way beneath the man, and he too fell into the water. But his son was quickly on the spot with another long pole, and after many trials, succeeded in saving first his old father, then Fr. von Colmar, and finally the Princess, who called out to him that she could hold out the longest, and that he must first save the others. In the mean time several persons had collected and helped to bring the party to the shore. A carriage was quickly telephoned for to Glienicke Castle, and took the two ladies home."

Old Ireland has arrived! Our cellar rejoiceth. "Galway Whisky" will soon take the cake and everybody will be taking it in all the restaurants in town. Galway whisky is like the county in which it is made, viz, one of the best in all Ireland; and our friends Messrs. Mvdd and Co., the sole agents, are most emphatically what the lovely and dashing Baby Blake would call "the men for Galway."

We are most truly sorry to hear, and guaranteed railway shareholders in England will be specially grieved to learn, that Dr. Zorrilla, the Minister of the Interior, is suffering from general debility, brought on by the hard work he has had since he entered office. He will probably take a run to the Cordoba mountains, the air of which has so speedily restored President Uriburu to health.

Here is an amusing reminiscence of our late lamented colleague, George Augustus Sala, told by a London contemporary:—"When he was sojourning in the United States, thirty years since, the publisher of a popular magazine waited on him one day and asked if he was willing to write him an article of sixteen pages for which he offered a very handsome remuneration. 'The subject?' inquired Sala. 'Niagara,' was the reply. 'Heavens!' exclaimed the English journalist. 'I have been there, but what can I possibly tell your people about the Falls that they do not know?' 'You can tell us,' replied his visitor, 'how they impressed you.' You see, our people are not tired of hearing how our great sights make you strangers sit up. 'Agreed' said Sala; and when his visitor had gone he sat down to write—telling in his discursive fashion how he contrived to prevent a smart Yankee monopolising a corner seat in the railway car, and how he lost his portmanteau and found it again, all which suggested telling a little story of what once befel him at a custom-house on the German-Russian frontier, which again reminded him of a story of his late mother and the old Duke of Wellington. And so his facile and diverting pen rattled on till he began to think it time to get to business, and therefore launched out into a picturesque description of the country on both sides of the line as seen from the windows of the carriage in the train that was fast carrying him towards Buffalo, his destination. At last he paused, and taking stock of the manuscript which now covered his little table, found that he had, within a line or two, already exhausted the space allotted to him, yet had not said a single word about the Falls of Niagara. Thereupon he dipped his pen in the ink once more, and added the words: 'P. S.—I ought to have mentioned that there are some very remarkable natural waterworks in the neighbourhood.' The perpetrator of this audacious evasion used to declare with an extra twinkle in his better eye that so far from showing resentment, the editor and his readers were charmed with his smartness and delighted with the jest."

Army and Navy news is now eagerly looked for every day in the papers by those who formerly did not care a fig for such intelligence. The fact is that people are beginning to understand how much depends on both services, and, above all, on the National Guards, who will have to do most of the fighting, in case of war. The War Minister intends to form two regiments (4 Battalions) of the 2680 Guards of this city who are obliged by law to serve in the Line for a year. Colonels Oro and Toscano will command these regiments. The existing twelve infantry regiments will be raised to 568 men each, to make up the force of 6816, voted by Congress. There are fully 3000 men still required to bring horse, foot and artillery up to the required strength. The three new sheds in the Arsenal for guns and rifles are finished, and another will be added. We hope no shells will be put in these sheds, as half the South end of town might be blown over the moon if an accident happened.

The following visitors arrived yesterday:—
Deux Mondes—Pedro Salas, from Cordoba; Leopoldo de Lafour, from Rosario; Julio Tigner, do; Donato Perez, do.
Francis-Passant—Navarro, from Tucuman; Luciano Batlis, from Tandil; Jesus E. Alvaroz, from Tucuman; Juan Lator, from Las Heras; Juan Jose Fernandez, from Dolores; Damaso Martinez, from Chacabuco; Pedro Chuse, from Mercedes; Evarista Lopez, from Province.
Britannia—Mr. Coles from Montevideo, R. H. Henderson from the City, G. H. West from Lincoln, Cunningham and Capt. Evans from La Plata.
Roma—Juan Sarranera from Rosario, Cebalero Abrego from 25 de Mayo, Carmen Garcia Ortiz and family from Mercedes, Ulises R. Lucero from San Luis, Luis Salazar from Tucuman and P. Navarro from Tucuman.

R H E N S

We call the attention of Mr. Barrow, the popular manager of the Southern Railway, to the fact that there are again some screws loose on the line. On arriving from Mar del Plata yesterday morning a lady found that her trunks had been opened and several articles taken from them. There is such passenger traffic now on the Mar del Plata line that extra vigilance in the luggage department is necessary.

The following news from Australia will greatly interest River Plate sheep-farmers:—"An important discovery in regard to sheep fluke is reported from Australia. It was made by Dr. Cobb, at Austermere, Moss Vale, where investigations were being carried out through the public spirit of Sir John Lackey, President of the Legislative Council of New South Wales, and owner of the estate. He has determined the intermediate host of the fluke to be the common land snail (*Eulimna brazieri*). Specimens of the snail and photographs of the intermediate form of the fluke have been taken. In Australia this discovery, which is of great interest to sheepfarmers in the Plate, will lead to several important recommendations with regard to the suppression of fluke, which would shortly be made public. As soon as it was discovered that this snail was the intermediate host of the fluke, a search was made for the enemy of the snail, and it turns out that one of the most voracious eaters of the snail is the common pee-wit, and Dr. Cobb is of opinion that the pee-wit is one of the best friends that sheep-owners can have."

We have received from the Ladies' Committee of the Boys' Orphanage a kind acknowledgment of the free space, etc., given in our columns last year to this most meritorious institution.

The *Bien* of Montevideo says that the report started by an afternoon paper to the effect that the priests intended to strike for a higher fee for saying Mass, is merely a malicious invention, without any foundation whatever.

We shall feel obliged to any mercantile reader who kindly answers the following question put to us yesterday, but which is beyond our ken:—"What duty do seal skins pay in England; also the cost of curing same per skin?"

The *Sun* is n't shining as brightly as was expected, and ex-President Harrison has spoken on the Venezuelan business. The *W. G.* says:—"Ex-President Harrison is reported to have remarked that 'Congress has acted like a set of fools in the Venezuelan business.' So far 'Joe Pulitzer.' Mr. Dana, whose name was much more widely known over here than that of the proprietor-editor of the *World*, continues to disappoint his English friends in his conduct of the *Sun*. This Jingo organ's latest declaration is that 'an ultimate war between America and Great Britain is not only possible, but probable, so long as England maintains in Canada an outpost of aggressive hostility against us.' The *Sun* wants the United States 'put on a war footing.' This is from a leading article headed 'Christmas.' According to this morning's advice, the *Sun* is now inveighing against the most conspicuous Press advocates of peace as 'aliens'."

There was a curious mixture of blessed Peace and accursed War in the cablegrams from Europe yesterday. While the Hebrew First Lord assures the world at large that the new Flying Squadron is not meant for anything in particular except looking after British interests in a general way, Lord Lansdowne announces that the field artillery of the British army is being largely increased. This shows pretty plainly that John Bull expects to have to fight on land as well as on sea soon. In Egypt the native papers are again howling for the red-coats to leave the country. In the Washington Senate the voice of Secretary Olney is still for peace, and he has been kind enough to say that 'Union and amity between the two great English-speaking nations is necessary to maintain political freedom and justice throughout the world.' 'Bravo! Mr. Olney.'

ON 'CHANGE.

Thursday, January 23rd 1896.
Gold Premium.

First Ring 224.80%

Second Ring 223.60%

The fall in the gold market is the subject of general comment. Coming as it does on the heels of a semi-official declaration of our colleague *El Diario* that gold was bound to fall headlong, the premium then being over 230%, many are willing to believe that our Financial Sphinx is putting down gold. Such, however, is not the case, unless certain financial operations, that relieve the government from the necessity of entering gold or exchange markets, be received as a leverage in the gold speculation. It is now an open secret that 30,000,000 gold have been sunk in extraordinary expenditure and that Minister Romero has secured in London and Berlin all the funds that the Treasury may need. So far, the action of the Government or Minister on the gold speculation on 'Change may be dismissed. Others, some of the shrewdest men in the market, opine that gold is high, owing to the enormous production of the country: with these parties there is a conviction that gold is dear at 200% premium. If a bull argue about the Chilean question he is immediately nonplussed by the answer—"but for Chile gold would be 100 points lower: it is the international difficulty that is keeping up gold in a market glutted with gold." Meantime, many of these enthusiastic bears who bang away gold are eager to secure it back again on time though they pay fifty cents for a week or three points for a month. The gold market, no doubt, is falling, and falling steadily, but we have our doubts, our suspicions and do not think that the speculative ground on which the market is trading can be relied upon as steady. The slightest rumbling from the West may act like a bolt from the blue, and there is a deal of sheet-lightning all over the horizon.

Last night's bearish breeze assumed the violence of a gale on 'Change this morning and the gold premium was knocked down at a rattling rate. The bulls were sledge-hammered right and left with heavy sales of the precious metal for cash and end of the month. There was a deal of croaking in the "couillises" of the speculation, but the supply of gold was too forcible an argument to be resisted. It is remarked that the same parties who heaved gold so successfully in 1895 are again on the war-path and are working hard for a fall. As the market burnt its fingers last year, it reads the operation.

Four hundred thousand gold dollars changed hands for cash at the first ring: the premium opened at 224.80%, say one point under last night's closing quotation, fell to 224.50%, rose to 225%, and closed at 224.80%. Two hundred thousand dollars were sold for the end of the month: the premium opened at 225.20%, fell to 225%, rose to 225.80%, and closed at 225.50%. About thirty thousand dollars were sold for the end of February: the premium opened at 227.50%, rose to 228.50%, and closed at 228%. The turn-over in gold at the first ring amounted to nine hundred thousand dollars.

Business in stocks and shares was dead-and-alive. National Cédulas still hang fire; a few thousand changed hands at 77.50. It does seem anomalous that a 7% National Cédula, with guarantee of real-estate and of the Nation, should be quoted at 77.50 whilst 6% National Internal Bonds should be rated at 77 also, not to mention Municipal Bonds. The logic of investors is at fault. Nothing was done in La Plata Cédulas or Catalinas—rather dull times for stock-brokers.

The following is a summary of the business effected at the first ring to-day:

For cash, F. 5,000 at 77.50.

Jan. 24... F. 47,000 at 77.80.

Value of gold coins in moneda legal according to closing gold quotations of first ring:—

ONCE 52.86%

SOVEREIGN 16.37%

Movement of exchange to-day, large quantities of produce must have changed hands this morning in the Plazas. Wool bills were plentiful, and there was a spring in the heel of the market, and in some quarters it was stated that there will be a plethora of exchange to-morrow. Produce gold was also freely showered all day at the ring. A lot of sterling exchange was passed at 48 5/16d., continental bills at 5.09 to 5.10 fcs. hard, and 4.13 mks. on Germany. The situation is hard, and rates are rising.

The demand for paper money is always stiff. Discount rates for paper bills are steady at 8%, gold nominal at 7%. There is no demand for gold. All the banks are glutted with gold, and do not know

"The bright, moving picture of the country's trade, commerce and production on the opening year consoles us with the conviction that its future is superior to human error and independent of individual infirmities."

The above lines, quoted from THE STANDARD of 3rd inst., are the true expression of our sentiments respecting the present position and expected future of the country, if we are to judge from what has occurred to us, as a minute fraction in its common wealth, during the year that has expired, and the hopeful advent of the new one on which we have entered.

If we take our branch of trade, and instance our business in particular, we have to admit that the prospects as regards the country at large are not at all exaggerated in the transcript we have made of us, as the increase in our concern has been beyond our most sanguine expectations during the old year, and, on the eve of the new one, promise is given of a very satisfactory augmentation.

To keep pace, therefore, with this hopeful state of affairs we have made ample provision, and our stock, which is always kept in adequate supply, will be periodically increased with every novelty to meet the increasing requirements of the year.

On the 21st January, at Calle Belgrano, Banfield, Charlotte Caroline, the beloved daughter of John and Constance Elliot, aged 6 months.

German ss. Crefeld from Dock 1 for La Plata to fill up.
Austrian do Alheri Giovanni from the Boca for Rosario to load.

RIVER STEAMERS.
The Eolo and Golondrina from Montevideo are expected to-morrow in the South Basin.
The Venus leaves to-morrow for Montevideo.

GENERAL.
The Italian s.s. Montevideo should to-morrow enter the port of La Plata from Genoa and intermediate ports. She brings 13 first and 236 third class passengers and 800 tons g.c. Her mails should be delivered during the day.

The 25th has now been fixed for the departure of the Bretagne for Rio and Southampton for Genoa.

The fast Italian packet Nord America left Genoa yesterday for Las Palmas and the Plate with 900 passengers and 700 tons g.c.

The P.S.N. boat Orcena left Lisbon yesterday on her voyage to Montevideo and the West Coast.

The Castilian Prince from London and Oito from Penang are both expected to-morrow in the Roads.

The Centurion left the Roads to-day in ballast for Rosario, also the Falkland for San Lorenzo, both to load.

The French ss. Aquitaine left Rio yesterday on her voyage from the Plate to Marseilles.

Bills of health were to-day issued to the Caffaro for Genoa, Nuevo Harnero for Santa Catalina and River Mersey for Rio Janeiro.

The following s.s. are posted to leave to-morrow—Wexford for Liverpool, Pacific for London from La Plata, Carperly for Rosario and Castle-moor for San Vicente.

The Chief of the Naval Staff has given orders that the National gunboat Paraná prepare to leave within a few days for the Bay of San Blas with chains and anchors and buoys for the channel in that harbor. The buoys placed by Colonel Rivadavia in 1883 were washed away by South-East gales years ago, and the Government now sees the necessity of buoying the channel, as the port is invaluable as a refuge for the fleet in case of storm, and is splendidly situated for a coaling station. It may happen that Colonel Garcia will call at San Blas on his way down to Golfo Nuevo next month.
